

NorCal Business Aviation Newsletter: December 2013

Holiday Greetings Everyone,

I want to wish everyone a pleasant holiday season and would like to take a moment to express our appreciation and thanks to everyone involved with the NCBAA this year. It has been a rewarding year for our organization as we; gave out two scholarships, helped create and fill intern positions, awarded free training, reached out to our state government and had a successful 2013 Safety Day. I look forward to 2014 and hope we can continue to meet and possibly exceed your expectations. Please have a safe and wonderful holiday season, I look forward to seeing everyone again at our next luncheon.

No NCBAA meeting in January due to the NBAA Schedulers and Dispatchers conference taking place in New Orleans Jan 14th – 17th. Several people are attending, if you're interested, here's a link to it. <http://www.nbaa.org/events/sdc/2014/>

February 11th, 2014

Our next meeting is scheduled for February 11th, location TBD. Our sponsor is **Embraer**; the discussion topic will be "Embraer's Safety Case for Fly-By-Wire". Our speaker will talk to us about the many safety benefits of fly-by-wire and Embraer will bring along a fly-by-wire desktop simulator so we can all see for ourselves the differences between conventional controls and fly-by-wire. This might be a hangar event if Embraer brings an aircraft to the meeting. Stay tuned and we will pass along more details as we get them.

Have a Safe Holiday Season!

Brian
